

A hot sauce company needed to spice up a variety of glass bottles with tamper evident bands at various speeds.

CHALLENGE:

Need a versatile applicator capable of accommodating 2 oz and 5 oz bottles, with 12 oz bottles in the future

FUN FACT

1/8 oz bottles are included in U.S. military ready-to-eat-meals.

CHALLENGE:

Bottles have no shoulder for neck bands to rest on so preshrink is required before entering the shrink tunnel

CHALLENGE:

Highly acidic product and its vapors are corrosive to packaging equipment

CHALLENGE:

The 1/8 oz bottle needs both full length sleeves, as well as tamper evidence

SOLUTION:

- PDC's **Model 75-ER** is capable of banding 300 bottles per minute
- PDC's **Model 90-E** is capable of running 400 bottles per minute, and 450 bottles per minute at surge speed
- PDC's **KRC Series** single-zone heat tunnel
